

	Allergy	Immunology	Pulmology I	Pulmology II	Nursing
Wednesday, May 6th					
Registration and wellcome snack					
15-16:30	Allergy diagnostics (Korošec, Košnik)				
	Edward Knol: Clinical implementation of Basophils Activation Testing in allergy diagnostics				
	Bernadette Eberlein: Diagnostics of alpha-gal syndrome				
16:30-17:00	Satelite simposia				
17:30 -19:00	Immune deficiencies (Avčin, Ihan)	Immune deficiencies (Avčin, Ihan)			
	Anna Sediva (Czech Republic) Lungs in Primary Immunodeficiencies	Anna Sediva (Czech Republic) Lungs in Primary Immunodeficiencies			
	Recent advances on management of autoinflammatory diseases (Natasa Toplak)	Recent advances on management of autoinflammatory diseases (Natasa Toplak)			
	Genetics of inborn errors of immunity (TBC, Maruša Debeljak)	Genetics of inborn errors of immunity (TBC, Maruša Debeljak)			
	Brigita Koren: Selective IgA deficiency – our experience	Brigita Koren: Selective IgA deficiency – our experience			
19:00-19:30	Satelite simposia				
Congress Lecture IMMUNOLOGY		TBA			
Poster viewing with dinner					
Thursday, May 7th					
8:30-10:00	Drug allergy / anaphylaxis (Kopač)	Ihan: Dendritic cells			
	Lenka Sedlackova (Czech Republic): Radiocontrast media hypersensitivity	TBA			
	Grzegorz Porebski (Poland): MRGPRX2 in immediate drug hypersensitivity reactions - tips or tricks				
	Myths and truths in drug allergy in children (Tina Vesel Tajnšek)				
10:00-10:30	Satelite simposia (Eberlein: Dupixent: Data from clinical studies and practical considerations)				
11-12:30	Immunotherapy (Zidarn)		Genetics in pulmonology (Rijavec)	Sleep disordered breathing (Ziherl)	
	Mirjana Turkalj: Immunotherapy of food allergy: does it work?		Anastasios E. Germenis: "Rare Diseases: From Therapeutic Orphans to Pioneers of Precision Medicine"	Stefan Mihaicuta: OSAS phenotypes might tailor different treatment strategies -	
				Kristina Ziherl: OSAS and women – different clinical presentation and different consequences	
				Jasmina Gabrijelčič: Noncardiovascular complications of untreated OSAS	
				Irena Šarc: CPAP or NIV in treatment of OHS	
Poster viewing with lunch, Satelite simposia (Takeda HAE)					
13:30-15	Urticaria/angioedem / AD (Miljković)	Autoimmunity I (Tomšič/Čučnik)	Intensive medicine (Goriup)		
	Frank Siebenhaar: Why omalizumab (usually) works in CU?	Katja Perdan Pirkmajer: Systemic sclerosis – where do we stand?	Giuseppe Bellani: Spontaneous breathing in critically ill patients: opportunities and challenges		
	Edward Knol: Implementing biomarkers in immunophenotyping and severity scoring of atopic dermatitis	Katja Lakota: Integrative approaches in systemic sclerosis	Jovan Matijasević: Direktno kateterske intervencije u akutnoj PTE		
	Rijavec: Predictive factors of response to omalizumab treatment in chronic sponaneous urticara	Blaž Burja: A role of dimethyl- α -ketoglutarate in TGF β -driven profibrotic responses of dermal fibroblasts	Alenka Golcnik: Ventilation monitoring in intubated patients - basic principles		
	Sladana Andrejević: Hereditary angioedema and systemic autoimmune diseases	Tina Kamhi Trop. Rok Ore: Autoimmunity and Coeliac disease	Rihard Knafelj: Use of volatile sedation in ICU patients.		
		Blaž Krhin: Autoimmune thyroiditis	Dušana Obradović: Recognizing a critically ill patients-do we need scoring systems?		
		Manca Ogrič: Detection of anti-drug antibodies improves therapeutic drug monitoring in patients treated with TNF- α inhibitors			
15:00-15:30	Satelite simposia (Ziebenhaar: Xolair); (Confalonieri: pulmonary fibrosis)				
16-17:30		Transfusion (Čurin)	Rare pulmonary diseases (Terčelj, Osolnik)	Rehabilitation (Šarc)	
			Marco Confalonieri: pulmonary fibrosis	Gabor Kovac	
			Koren: PET-CT pri sarkoidozi		
17:30-18:00	Satelite simposia (Vukoja: Inhalers)				
18:30-20		Transplantation (Jeras)	Obstructive lung diseases (Škrčat)		
			Ratko Đukanović (United Kingdom): Transcriptomics		
	Satelite simposia (TBA: Severe asthma)				

			Ratko Đukanović: Sharp Project		
Congress dinner					
Friday, May 8th					
8:30-10:00		Innate immunity (Jerala)		Diseases of pulmonary circulation (Salobir)	
		Nick Gay: TBA		Nika Skoro-Sajer: TBA	
		Iva Hafner Bratkovič: TBA		Arsen Ristić: TBA	
		Mateja Manček Keber: TBA			
10:00-10:30	Satelite simposia: (Hochmair: Lung cancer)				
11-12:30		Autoimmunity II (Božič/Čučnik)	Lung cancer (Čufer, Mohorčič)		Nursing care in pneumology I
		Yehuda Shoenfeld: Hyper stimulation of the immune system as a major role in Autoimmunity ; CPI and Silicone breast implants as proofs of concepts.	Maximilian Hochmair (Austria): Novel drugs for lung cancer and how to optimize access to them		
		Poiona Žigon: Extracellular vesicles in antiphospholipid syndrome	Bojan Zarić: TBA		
		Alojzija Hočevar: Can we predict gastrointestinal and/or renal complication in IgA vasculitis?	Jelena Spasić: TBA		
		Tadeja Kuret: Insight into cell and molecular profiles in adult IgA vasculitis			
Poster viewing with lunch					
13:30-15:00	Satelite simposia (Čufer: Lung cancer)	Cancer immunotherapy (Čemažar)	Thoracic surgery (Marko Bitenc)	Quality and safety	Quality and safety
		Gregor Serša: Interleukin-12 gene therapy for treatment of cutaneous tumors			Borut Ošljaj, filozof: Evtanazija, argumentacija, humanost
		Urška Kamenšek: Gene electrotransfer for cancer immunotherapy			
		Martina Reberšek: Retrospective analysis of treatment-naive Slovenian patients with metastatic melanoma treated with pembrolizumab – real-world experience.			
		Damijan Valentinuzzi: Radiomic analysis of lung cancer immunotherapy			
		Ivanovic: Immunotherapy of lung cancer immunotherapy: real world experience			
		Breda Škrbinc: Immunotherapy of bladder cancer: real-world experience			
15:00-15:30	Satelite simposia (Čufer: Lung cancer)				
16-17:30			Interventional pneumology: EBUS (Rozman)	Air pollution	Health education of patients
				Otorepec	
				Dedić	
17:30-18:00	Satelite simposia				
18:30-20:00			Pleural diseases: Infections (Marc)	Lung function tests (Fležar)	Nursing care in pneumology II
				Vladimir Žugić: Respiratory muscles and mechanics of the thorax	
Congress dinner					
Saturday, May 9th					
8:30-10:00			Lung infection / Tuberculosis (Svetina)	Transition between pediatric and adult pneumology (Berce)	Nursing care in pneumology III
			Azra Jusufović: Diagnosis and Management Endobronchial Tuberculosis	Vojko Berce: Ultrasound in diagnostics and etiologic definition od pneumonias in children	
				Asthma in children (TBC, pediater pulmolog PEK)	
10:00-10:30	Satelite simposia				
11-12:30			Paliative care	Imaging	Nursing care in pneumology IV
				Aleksander Marin: TBA	
				Ante Marušić: TBA
